Woman's Duties.

A woman who keeps her house in order
and has the care of a family, has just as
much responsibility as the man who pro-
vides the means to carry on the house-
keeping. She is the deserving of the
more credit since the demands on her
strength are greater. The overtaxing
sagacity about her duties, and the con-
tinuous strain on her nervous system, this
produces a strain on the mind that makes
her irritable, cross, and dissatisfied, which
is just as much a disease as rheumatism or
catarrh. If the nerves can be built up
and made strong by medicine of some
kind, this feeling is changed to one of
cheerfulness and pleasure in her duties.
The medicine that makes strong steady
nerves, and prevents disease by build-
ing up the entire system, is Dr. Gunn's Blood
and Nerve Tonic, a tablet to take at meal
time. Cures nervous prostration by mak-
ing rich blood, feeding the nerves, and
making solid flesh at the rate of 1 to 3
pounds a week. This medicine is sold by
druggists for 75 cents per box, or 3 boxes
for \$2, or sent by mail, post paid, on re-
ceipt of price. Write us about your case.

What Time Proves.

This thing of being sick and looking for
a cure is a mighty serious business. Peo-
ple are not given to joking even at the first
symptom of the approach of the grim
destroyer. They do not want to be the
subjects of experiment, but want medicine
that had the test of years behind it.
medicine that has been made and used for
20 years give assurance of its worth, and
can be taken with faith that they have
the very best cure the world affords. All
this can be said about Dr. Gunn's Im-
proved Liver Pills as a remedy for sick-
headache, dyspepsia, and indigestion. It
begins right at the source of the trouble
and removes the cause. We will send
a sample box of these pills free, or a full

A SENATOR TO BE ELECTED.

A Senator from this district will be elected at the next election to succeed the late Senator Byrnes and already Santa Cruz County has a crop of candidates for the nomination, believing that the Senatorship should go to that county this year. Ever since the formation of the district there has been a tacit understanding between the counties that the nomination should alternate—that is, Santa Cruz should have it one term and this county the next. This rule has been followed until 1893 when the compact was broken and the nomination for two successive terms given to Santa Cruz. That year Mr. Kron was nominated at San Mateo and after a vigorous campaign he was beaten by Bart Burke, the Democratic candidate. This county was entitled to the nomination the next term, according to the precedent established at the beginning. Mr. Witter was the candidate from this county. The convention met at Santa Cruz and to the great surprise of the delegates from San Mateo Mr. Witter was turned down and the prize went to Mr. Trout of Boulder Creek in Santa Cruz County. Trout was beaten in his own county by Mr. Cassin, the Democratic candidate but owing to the big majority he received in this county he was elected by fifty votes. Under those circumstances we cannot see why Santa Cruz should lay claim to the nomination this year. It certainly by all fairness belongs to this county. True it is that Mr. Byrnes was given the last term but we are still entitled to an other to make up for the eight years that Santa Cruz held it.

Thus far there are no aspirants for the honor. Assemblyman H. W. Brown who served the people of this county in the lower house for several years so faithfully and well is certainly entitled to a promotion. If nominated he would be elected and he would be a credit to the district in the Senate.

The grand hop next Friday evening in Athletic Club hall, San Mateo, under the auspices of San Mateo Parlor No. 23, N. S. G. W., will be one of the best attended and most enjoyable affairs ever held in that city. The music for the occasion will consist of eight pieces, the orchestra being one of the best in the State. Cronin and W. Emmett.

FILIPINO BAND IS COMING.

Lieutenant Wesley King of the United States Army was here yesterday and engaged the Alhambra for Saturday night on which date the music-loving people of Redwood will be given an opportunity to hear one of the most notable concert bands that has ever taken place in this city which will be given by the Philippine Scouts' band, an organization of 50 performers, all of whom are musical artists of the highest merit.

The history of this organization is a very interesting one. The natives of Luzon are divided up into a number of different tribes, having each a distinctive name. The Philippine scouts was organized after the American occupation and each company was recruited from one of these tribes.

The company has been of great service to the Americans in putting down the insurrections that have arisen from time to time. The men, being natives, are familiar with the ways of the people, and being under American officers and subject to the drill of the regular troops, have become a strong factor in the work of suppressing the bands of revolutionists who have endeavored to drive out the Americans. Many of these men assisted in the capture of Aguinaldo, the leader of the revolution. The band is made up from the scouts, and in its organization the very best musical material of the islands has been at the disposal of those in charge.

Lieutenant King will also bring down five men from each company, twenty in all, who will give what is known as the musical drill. This is a very beautiful drill and is performed with marvelous skill by these Filipinos.

The band has been delayed in getting transportation to St. Louis, and in order to keep the men occupied a few concerts will be given in the immediate neighborhood of San Francisco, Redwood being one of the fortunate cities to be selected.

Reserved seats will be sold at the Pioneer drug store for 50 cents and 75 cents. General admission 35 cents.

Choice of All Routes East is offered by the Southern Pacific. You want the best—the one that suits you best. Don't make any arrangements until you have learned of the magnificent limited trains and personally conducted excursions in new Pullman tourist cars of our different routes. C. H. Eckhart, Southern Pacific Agent, Redwood City, Cal., will sell you a ticket, reserve you a berth, or write to Paul Shoup, P. F. and P. A., 16 South First street, San Jose.

NEW SEQUOIA HIGH SCHOOL.

It Is Pronounced the Best Equipped High School in the State.

Supplied with All the Latest Apparatus It Will Be a Foretress of Learning.

A year ago the new Sequoia Union High School was a vague problematical prophecy; to-day that institution stands complete in the realism of every particular.

Fortunate in its superb location, centered as it is near the County Court House and the Redwood City Grammar School; easy of access; fitted with every modern appliance and equipment known to the school world; possessing more of the conveniences of scholastic life than any other high school in the State, Sequoia will occupy a front rank among the secondary educational institutions of the day, and because of this, attract an increased number of students to Redwood, which will aid our growth as a city.

The building is constructed of light, pressed brick. The windows are artistically decorated with inlaid tilings, while the roof is of slate. The woodwork throughout the interior is a polished stained redwood.

Passing up the massive marble stairs, through the hall, and into the main assembly room, which occupies the

entire south length of the building, one is impressed with its spaciousness, its simple decoration, and its artistic arrangement, imparting a quiet place for study between recitation periods.

To the right of the main exit is the office. Here the principal is placed in direct communication through the latest of inside telephones and electric indicators with every room in the building. Adjoining is the history apartment. The walls of this room will be decorated with pictures relative to the work of the historical curriculum. The Latin and English departments are also upon this floor. They are situated in the northeast corner of the building and are equipped in the same elegant manner.

The rear of the second floor is occupied by the Physics and Chemistry laboratories. These rooms are probably unsurpassed for experimental facilities.

under the skillful management of Mr. John MacBain, whose record at the head of such large undertakings has been one of long continued success. Mr. Coffee, the well-known architect, drew the plans for this structure which will shortly be Sequoia's home.

San Mateo County may well feel proud of this strong little fortress of academic learning. Redwood City, in particular, undoubtedly feels an intense vernacular pride in her new \$500,000 high school. No promulgator can picture, no nomenclature can minutely describe our compact little institution which is now ready to be turned over to the educators of this district. One of the prominent men of San Francisco sums up the situation when he remarks after an itinerary through the classrooms: "You have the best equipped high school in the State."

TO PREVENT WORMY APPLES.

A Bulletin Just Issued by the State University.

We have just received from our Agricultural Experiment Station at Berkeley a copy of Bulletin 135, entitled "Directions for Spraying for the Codling Moth," which is the first of a series of bulletins giving the results of the investigations conducted the past season in the Pajaro Valley.

The writer, Professor C. W. Woodworth, has demonstrated that the insect can be controlled under a great variety of climatic conditions, so that the loss is reduced to a very small percentage. This cannot be done by following blindly the same programme of operations in every district. Indeed, the best results may even require a somewhat different course of treatment on successive years in some localities.

The bulletin contains very explicit directions for obtaining the facts upon which the proper timing of the treatments must depend. Growers should have any difficulty in making the observations suggested.

The production of wormy fruit should not be tolerated when it can be avoided by the proper attention to the details as here indicated.

We have a few copies of this bulletin for free distribution at the Times-Gazette office, or it can be had by applying to the Agricultural Experiment Station, Berkeley, California.

Reached Port.

Captain Hanson, with whom he passed his latter life, saved him on one occasion and since then he has resided almost continuously with him. He was aged about 82 years.

Miss Nelson Entertains.

Bacon won the series of twenty games, with a score of 30 points, while the booby prize went to Mr. Bacon, who had secured but eight.

Other games, reminiscences and music were indulged in and refreshments served.

ALL AROUND THE COUNTY.

Events of the Week as Recorded by a Corps of Special Correspondents.

The Dance at Woodside Was a Fizzle.—Millbrae School Is Having a Vacation.

WOODSIDE, April 1.—William Carter, manager of the Talbot place, is able to be around after a severe attack of pleurisy.

John Walker is moving into his new house on Albion avenue which he recently purchased from Jerry Hollinshead, Miss Doyle having removed into the McNulty cottage.

Ernest Crowhurst, employed by Charles McIntosh for the last two years, has resigned his position.

The continued rains the first of the week caused several slides between here and La Honda. As a result the stage and all mountain travel was greatly hampered.

The dance last Saturday night was a first-class fizzle. People who give dances during Lent in this place will find it a more successful proposition to wait until after Easter. There is some talk of giving a dance here on the 16th.

Owing to the illness of Father Lyons and Bailey of Menlo Park, Rev. Father Doran of St. Patrick's Seminary celebrated mass in Portola last Sunday.

The Misses Hennessey of San Francisco spent a few days with their sister, Mrs. J. Daly, the first of the week.

William Byrnes made a flying trip to San Francisco the first of the week, combining business with pleasure.
